

**Save yourself expensive photo shoots.**  
Create brilliant visuals and animations  
from your CAD-data!

**CREATE AMAZING 3D VISUALS IN MINUTES**

# KeyShot

**KeyShot is everything you need to create fast, accurate and amazing visuals - from scientifically accurate material and environment presets to animation and VR experiences. With KeyShot you create that perfect shot in no time. Creating product visuals or sales and marketing imagery has never been easier!**

## FAST, EASY, EFFICIENT, ACCURATE

Import your model and environment into KeyShot and experience rendering perfection.

Creating amazing and realistic imagery has never been quicker or easier. See results instantly as you work.

KeyShot is built on the most realistic rendering engine which results in stunning realism and incredible accuracy for your 3D data.

## FEATURES AND TECHNICAL SPECIFICATIONS

- Elements of assemblies are moveable e.g. for exploded views
- Material templates
- Interactive HDRI Editor
- Interactive labeling
- Many CAD-interfaces e.g. for Creo, SolidWorks, Rhinoceros, SolidEdge, Inventor, ALIAS, CATIA, AutoCAD, SketchUp, Siemens NX, Maya, Collada
- Supports 3D data such as IGES, STEP, AP203/214, jt, Parasolid,
- Export FBX and glTF
- VR-Support
- Configurator
- Soft materials (clothing)
- Deformation animation support
- Also available for MAC OS

(not all features are included in the KeyShot standard version)

## KEYSHOT MODULES & ADD-ONS

### Animation (Pro-Version)

- Part animation fade in/out
- Camera animation
- Model / part animation: turntable, translation, rotation
- Step by step guidance through animation wizard
- Flexibility without keyframe-animation
- Export to AVI, MPEG, GIF format etc.
- Mirror and duplicate
- Material and parameter animation

### KeyShotWeb

- Interactive 3D visuals
- Export as web configuration
- Export as iBooks Widget

### Network Rendering Add-on

- Cut down the time it takes to create visuals thanks to distributed background rendering

## KEYSHOT BENEFITS

- Desktop-rendering for everyone
- Fast and easy to learn - no expert know-how needed
- Results in minutes, not hours
